

# Believe to Achieve

## Key Priorities 2020-2021

### Priority 1:

To embed basic skills in English and Maths throughout the broader curriculum whilst developing a culture formed by repeated practice, good habits, expectation and clear vision.

### Priority 2

To implement and embed a bespoke curriculum containing breadth and depth, which all pupils can access and enjoy, whilst progressing their knowledge and skills as they move through the school.

### Priority 3

To continue to provide a safe, nurturing environment which values children and allows them to explore, learn and develop through communication friendly spaces that enable them to reach their full potential.

### Priority 4

Ensure through the teaching coaches program, that teachers develop enquiry based practise, apply the principles of metacognition and foster a new learning language in order for pupils to become independent and in charge of their own learning, thus raising aspirations for pupils and their families.

### Priority 5

To further improve all educational outcomes across the school in line with national expectations, with a focus on early reading, writing and improving standards.

### Priority 6

To vastly improve attendance and punctuality across the school by implementing new strategies which target vulnerable pupils and families.

### Priority 7

To maintain a robust shared approach to all matters of safeguarding and compliance.

### Priority 8

To further develop and support our staff and pupils well-being and relationships, ensuring that is provided through the curriculum as well as pastoral and outside support.
