Do I know the names of 2D shapes?
Cut out the boxes, and match them up in your book.

	SQUARE	I have no vertices. I have 1 edge.
	CIRCLE	I have four vertices Two of my sides are longer than the other two.
	TRIANGLE	I have five vertices. I have five edges.
	RECTANGLE	I have four vertices I have four edges.
	PENTAGON	I have three vertices. I have three edges.

Do I know the names of 2D shapes?

Cut out the boxes, and match them up in your book.

	HEXAGON	I have seven vertices. I have seven edges.
	OCTAGON	I have ten vertices. I have ten edges.
	DECAGON	I have five vertices. I have five edges.
	HEPTAGON	I have six vertices. I have six edges.
	PENTAGON	I have eight vertices. I have eight edges.
