As flowers come out lots of butterflies will start appearing. See if you can spot them and then try to identify them.</p>

The work is all about multiplying by 4 and 8.

Challenge:

If you'd like a further maths challenge, you could add some website links such as NECTM, bite size or the following White Rose link to have a go at the problem of the day:

<https://whiterosemaths.com/resources/classroom-resources/problems/>

Spellings:

This week's spellings have the prefix **sub**. Often it means under.

sub marine	sub way
sub divide	sub soil
sub heading	sub tract
sub urb	sub traction

Practise them every day, draw them in different colours, draw around them and put them in sentences. On Friday ask someone to test you.
